

4 Year Old Preschool

Riverview Early Childhood Center

Welcome

My name is Maechelle Myers and I am the teacher in the afternoon preschool program at Riverview ECC, along with Stacy Henry.

Our program uses **Creative Curriculum**. It addresses all areas of early learning: language, literacy, math, science, physical and social skills. It is based on thematic units familiar and meaningful to young children. We provide children an opportunity to learn in a variety of ways- through play, problem solving, movement, art, music, drawing and writing, listening and storytelling.

We have a lot of fun in our room and believe that children learn so much through play!
Stop in and check us out!
